

W. Stephen Wilson

Education:

S.B., M.I.T. (Math) 1969
S.M., M.I.T. (Math) 1969
Ph.D., M.I.T. (Math) 1972

Field: Algebraic Topology: Homotopy Theory: Complex Cobordism: Brown-Peterson
Homology: Morava K-theory

Advisor: F.P. Peterson (1930-2000)

Positions:

2022-present Professor Emeritus, The Academy, The Johns Hopkins University
2011-2022 Professor in the School of Education, The Johns Hopkins University
1980-2022 Professor of Mathematics, The Johns Hopkins University
1993-1996 Chair, Department of Mathematics, The Johns Hopkins University
1977-80 Associate Professor, The Johns Hopkins University
1974-78 Assistant Professor, Princeton University
1972-74 Instructor, Princeton University

Visiting Positions:

2006 (Jan-August) Senior Advisor for Mathematics, Office of Elementary
and Secondary Education, U.S. Department of Education
1998-99 Visiting Professor:
Kyoto University
Centre de Recerca Matemàtica, Institute d'Estudis Catalans
1983-84 Visiting Professor:
I.M.P.A., Rio de Janeiro
University of Witwatersrand
University of Melbourne
National Taiwan University
R.I.M.S., Kyoto University
1982 (Spring) Visiting Professor, Porto University
1980-81 Visiting Professor:
Hebrew University
Tata Institute of Fundamental Research
Osaka City University
1978 (Spring) Visiting Senior Mathematician, Oxford University
1977-78 Member, Institute for Advanced Study, Princeton
1975 (Spring) Visiting Assistant Professor, U.C.S.D.
1974-75 Member, Institute for Advanced Study, Princeton

Honors:

Fellow of the American Mathematical Society, inaugural class, January 2013
Conference and banquet in honor of my, and Douglas C. Ravenel's, 60th birthdays,
March 10-13, 2007.
The Mathematical Society of Japan's Seki-Takakazu Prize for the Japan-U.S.
Mathematics Institute, March, 2006
The Johns Hopkins University Homewood Student Council Award for Excellence in
Teaching, 2000
A series of 10 lectures, CBMS Regional Conference, 1980, SUNY at Albany
Alfred P. Sloan Research Fellow, 1977-1979
Invited One Hour Address, AMS Summer meeting, Duluth, Minn., 1979

Conferences organized

Special session at the AMS annual meeting, Baltimore, January, 1992.
Special session at the AMS annual meeting in honor of J. Michael Boardman's 60th
birthday, Baltimore, January, 1998.
Special session at the AMS annual meeting, Washington, January, 2000.
JAMI conference at Johns Hopkins University, March, 2000.
Special session at the AMS annual meeting, Baltimore, January, 2003.
Conference in Kinosaki, Japan, in honor of Goro Nishida's 60th birthday, July, 2003.
Special session at the AMS regional meeting in honor of the 60th birthdays of
Martin Bendersky and Don Davis, Newark, Delaware, April, 2005.
Special session at the AMS annual meeting, Baltimore, January, 2003.
Special session at the AMS annual meeting, Washington, January, 2009.
Second Mid-Atlantic Topology Conference, March, 2016. Johns Hopkins University.

Education activities

Winter-Spring 1999: While visiting Japan for 8 months we enrolled our son in the local public school. This gave us a very personal view of mathematics education in Japan. Through my many visits to Japan and with my many connections to Japanese mathematicians I have kept track of mathematics education issues in Japan.

November 1999: I signed the *Open letter to Richard Riley*, Secretary of Education.

2000: The Johns Hopkins University Homewood Student Council Award for Excellence in Teaching.

1999-2002: Son used *TERC Investigations* for 2nd, 3rd, and 4th grades.

Summer 2001: I wrote the Friends School of Baltimore a well informed letter about mathematics education and TERC in particular.

<http://www.math.jhu.edu/~wsw/ED/pam1.pdf>

Winter 2001-2: I helped Jerry Dancis with a petition about the “Algebra” test in Maryland.

<http://www.math.jhu.edu/~wsw/ED/petitiondancis.html>

February 2002: Survey of mathematicians about arithmetic and calculator usage:

<http://www.math.jhu.edu/~wsw/ED/list>

February 2002: I joined a group being organized by Robin West (among others) to try to influence mathematics education at the Friends School of Baltimore.

March 4, 2002: Attend Lynn Cheney's American Enterprise Institute conference: *Does two plus two still equal four?*

<http://www.aei.org/events/eventID.193/transcript.asp>

September 2002: I became a "national advisor" to NYC HOLD, a group fighting for mathematics education in New York City, organized, in large part, by Elizabeth Carson.

<http://www.nychold.com>

October 21, 2002: On a panel for a meeting of teachers for the Association of Independent Maryland Schools. What I had to say: <http://www.math.jhu.edu/~wsw/ED/panel>

December 2002: Gave a survey to all students at Johns Hopkins University in big service courses on their calculator usage in K-12.

2002-2003: Son used *Everyday Math* for 5th grade.

July 17, 2003: Meet with a teacher and an administrator about the mathematics program for high school for the Ingenuity Project at Baltimore Polytechnic.

<http://www.ingenuityproject.org>

October 24, 2003: Meet with teachers and administrators from the Odyssey School about their mathematics program.

2003-2004: Son used *Singapore Math* for 6th grade in public school in Baltimore.

2004: On a panel for the Fordham Foundation to evaluate the K-12 mathematics standards for all states.

May 22, 2004: Attend the National Association of Scholars National Conference in New York City and its NYC-HOLD panel.

2004: W.S. Wilson and D.Q. Naiman. K-12 Calculator usage and college grades. *Educational Studies in Mathematics*, 56:119-122,2004.

<http://www.math.jhu.edu/~wsw/ED/pubver.pdf>

This paper shows that our students who had calculators "encouraged and emphasized" in K-12 had lower grades in their large service mathematics classes at Johns Hopkins University.

July 21-24, 2004: A research mathematician representative at the conference: *Mathematics Curriculum: A National View*, a meeting of the Association of State Supervisors of Mathematics and the Board of the National Council of Teachers of Mathematics and a few research mathematicians run by Johnny Lott.

This was an amazing opportunity to get to know some of the people in charge of getting state K-12 mathematics standards written and to get some insight into the problems they have to deal with.

July 25-28, 2004: Participated in a conference, the *Mathematics Standards Study Group*, organized by Roger Howe, of a dozen research mathematicians interested in K-12 mathematics education.

This conference followed up on the conference run by Johnny Lott. A multifaceted publication will come out from this conference. My contribution is mostly to the “lead essay” where we try to answer the question asked in the first conference: what is important?
<http://www.math.jhu.edu/~wsw/ED/LeadEssay.pdf>

September 2004-Present: Appointed by Provost Steven Knapp to the Johns Hopkins Council on K-12 Education.

October 15, 2004: Invited to participate as a representative of the professional mathematics community at a meeting of the Board of the Adult Numeracy Network.

November 2004: Did a writeup about mathematics for people who help in an after school program. (Really for the people who train them from Educational Equity Concepts.)
<http://www.math.jhu.edu/~wsw/ED/after.pdf>

Winter 2004-5: The Johns Hopkins University contact person for Teach for America.

2005: W.S. Wilson. Short response to Tunis’s letter to the editor on technology in college. *Educational Studies in Mathematics*, 2005 (58):415–420.
<http://www.math.jhu.edu/~wsw/ED/EDUCTunis.pdf>

I was given the opportunity to write pretty much whatever I wanted by the editor of the journal.

January 2005: David Klein, with Bastiaan J. Braams, Thomas Parker, William Quirk, Wilfried Schmid, and W. Stephen Wilson. Technical assistance from Ralph A. Raimi and Lawrence Braden. Analysis by Justin Torres. Foreword by Chester E. Finn, Jr. *The State of the State MATH Standards*. Thomas B. Fordham Foundation. (130 pages.)
<http://www.math.jhu.edu/~wsw/ED/mathstandards05FINAL.pdf>

January 2005: Testified before the Maryland State Board of Education.

January 2005: Advised Ralph Fessler, the Dean of Johns Hopkins University’s School of Professional Studies in Business and Education, on elementary school mathematics programs for the new elementary school Johns Hopkins is going to run in the near future.

February-June 2005: Consult with Johns Hopkins University Professor Peggy King-Sears and participate in her focus group. She is developing a Johns Hopkins University course of study and certificate for mathematics teachers for middle and high school.

April 6, 2005: Meet with Senator Frist’s Education staffer and, later the same day, the House Science Committee Staff. Seven of us from around the country were in on these meetings about K-12 mathematics education. I was the mathematician for the group.

May 4, 2005: One of 10 authors of *Ten Myths about math education and why you shouldn’t believe them*. <http://www.math.jhu.edu/~wsw/ED/10myths.pdf>

May 24, 2005: Testify before the Governor’s Commission on Quality Education.
<http://www.math.jhu.edu/~wsw/ED/steele.pdf>

May 31, 2005: Washington Post article by Jay Mathew’s “10 Myths (Maybe) About Learning Math.” I was one of the several authors of the “10 Myths”.
<http://www.nychold.com/myths-050504.html>

June, 2005: The writings of the *Mathematics Standards Study Group* have appeared on the web at:
<http://www.admin.ias.edu/ma/current/LectureNotes.php>

The essay I was most involved with (with Alan Tucker):
<http://www.math.jhu.edu/~wsw/ED/Generalessay.pdf>

June 1, 2005 Hear Diane Ravitch and others talk at the Brookings Institution about the education reforms in New York City.

June 9, 2005 Johns Hopkins K-12 Council met with President Brody. He suggested a major Johns Hopkins University K-12 mathematics and science initiative.

July 8, 2005: Met with Provost Steven Knapp of Johns Hopkins University to talk about his involvement in K-12 mathematics education in Maryland.

September 9, 2005 American Enterprise Institute forum: The Department of Education Twenty-Five Years Later, with William Bennett, Lamar Alexander, Rod Paige and Andrew Rotherham.

September 14-15, 2005 Brookings Institution. Conference on Algebraic Reasoning: Developmental, Cognitive, and Disciplinary Foundations for Instruction.
<http://www.brookings.edu/brown/algebraconference.aspx>

September 21, 2005 Johns Hopkins University Council on K-12 Education. Planning for STEM initiative.

January-August, 2006: Senior Advisor for Mathematics, Office of Elementary and Secondary Education, United States Department of Education.

January 24, 2006 Observe at the National Board for Education Sciences (which oversees the Institute for Education Science) meeting.

February 3, 2006 Spend afternoon with the National Council of Teachers of Mathematics (NCTM) writing committee for the Curriculum Focal Points.

March 2-5, 2006 Finding Common Ground in K-12 Mathematics Education. Indianapolis, Indiana.

April 18, 2006 I was there when President Bush formally announced the creation of the National Mathematics Advisory Panel.

April 26, 2006 Protecting Maryland's Competitive Edge. An Action Summit hosted by the University of Maryland.

May 5, 2006 Talk to the Conference Board of the Mathematical Sciences about the National Mathematics Advisory Panel.

May 7-10, 2006 Invited participant in a Mathematical Sciences Research Institute (MSRI) conference: Raising the floor: Progress and setbacks in the struggle for quality mathematics education for all, Berkeley, California.

May-June, 2006 Advisor to the National Mathematics Advisory Panel.

May 22, 2006 National Mathematics Panel meeting. Washington, D.C.

May 23, 2006 Accelerating the K-12 Mathematics and Science Curriculum: Agenda for the 21st Century. The Third Annual Johns Hopkins Education Summit. I served on the panel: Thinking Big: Setting the K-12 Math and Science Agenda.

May 23-24, 2006 Russell Gersten's Center of Instruction workshop, University of Michigan, Ann Arbor, Michigan.

June 21-22, 2006 Observe the meeting of the National Academy's Study of Teacher Preparation Programs. Washington, D.C.

July 10-12, 2006 Park City Workshop on Middle School Mathematics, organized by Roger Howe and Alan Tucker.

September, 2006 Thanked in the introduction to the NCTM's Curriculum Focal Points.

Fall, 2006 Advised Matthew Peterson of the MIND Institute on mathematics for his Algebra Readiness text.

October 19-21, 2006 Represented the Johns Hopkins University Department of Mathematics at the Washington D.C. meeting of the American Mathematical Society Committee on Education where the new College Board mathematics standards were trashed.

December, 2006, and January, 2007 Pre-publication review of the mathematics content in the K-2 portion of a Houghton Mifflin mathematics program.

January, 2007 Help with the Frederick County Education Reform review and web site organized by Tom Neumark and others.

March, 2007 At the request of the Florida K-12 Chancellor I reviewed most of the draft of the revision for the mathematics content standards for Florida.

April - August, 2007 Wrote a background overview of Washington state's K-12 mathematics standards for Strategic Teaching's *Washington State Mathematics Standards: Review and Recommendations*. Also helped with the final touches on the writing of the report.

July 30-31, 2007 Attended the California 2007 mathematics adoptions meetings for Algebra Readiness programs in order to support the MIND Institute's program.

August, 2007 Helped Linda Plattner of Strategic Teaching write a summary of a comparison of the American Diploma Project with other standards.

July, 2007 - January, 2009 On the American Mathematical Society's Advisory Board for the Working Group on Preparation for Technical Careers.

Oct 8, 2007 Meet with Andres Alonso, Baltimore City Public School's new CEO, about setting up an Advisory Board for Mathematics for him.

Oct, 2007 Set up an Advisory Board for Mathematics for Baltimore City Public Schools.

Oct 25, 2007 AEI event: The Supply Side of School Reform and the Future of Educational Entrepreneurship

October 25-27, 2007 Represented the Johns Hopkins University Department of Mathematics at the Washington D.C. meeting of the American Mathematical Society Committee on Education.

November 28, 2007 Attend National Mathematics Panel meeting. Baltimore, Maryland.

January 16, 2008 Meet with the new head of mathematics for the Baltimore City Public School System to talk about the HSA and an algebra readiness course.

February 5, 2008 Help review the revised Washington State K-12 mathematics standards and report to the Washington State Board of Education.

March 10, 2008 Help review the next revision of the Washington State K-12 mathematics standards and report to the Washington State Board of Education.

Winter-Spring 2008 Help evaluate the Fulton County, Georgia, mathematics curriculum and its alignment with the state's standards. In particular, this was an opportunity to review the new TERC Investigation fifth grade materials, the new Connected Mathematics Project (all grades 6-8), some Core-Plus and SIMMS.

April 24, 2008 One of three presenters, along with R. James Milgram and William H. Schmidt, at the Leading Minds K-12 Math Education Forum.
<http://www.baltimorecp.org/leadingminds/k12math/>

May 1, 2008 Help present a draft of the revised Algebra 1 and Geometry standards to the Washington State Mathematics Panel.

May 14-16, 2008 Mathematical Sciences Research Institute (MSRI) conference on Critical Issues in Education: Teaching and Learning Algebra.

November 21, 2007 and May 20, 2008 Meet with the Abell Foundation to discuss the algebra preparation of Baltimore City Public Schools for the local Community Colleges.

Spring-Summer 2008 Help rewrite the revised Washington State K-12 mathematics standards. K-8 approved by the State Board of Education on April 28, 2008. July, 2008, 9-12 standards approved.

June 11, 2008 Testify for mathematics education to the Frederick County Public Schools Board of Education. The posting includes a brief review of the new TERC Investigations.
<http://www.math.jhu.edu/~wsw/ED/fred.pdf>

June 17, 2008 On a panel for the Greater Baltimore Committee's Education Committee.

July 9, 2008 Meet with the Abell Foundation and agree to supervise Gabrielle Martino on a study of Baltimore City's alignment with the math placement test used at local community colleges.

September, 2008 A paper looking at the correlation between arithmetic test scores, geometry test scores, and grades in Calculus III: Arithmetic, Geometry, and Calculus III.
<http://www.math.jhu.edu/~wsw/ED/arithgeomstudy08.pdf>

September 3, 2008 Give a colloquium at Lehigh University to the Department of Mathematics on K-12 mathematics education.

October, 2008 Made a member of the Advisory Council to the MIND Research Institute on issues related to equal access to knowledge and skills in mathematics.

October 21, 2008 Panel member for the MIND Research Institute Forum. National Academy of Sciences. Washington DC.

October 27, 2008 Strategic Teaching's final report on K-8 textbooks for Washington State along with my math review.
<http://www.math.jhu.edu/~wsw/ED/streview.pdf>
<http://www.math.jhu.edu/~wsw/ED/wswmathreview.pdf>

January 22, 2009 On a panel at Sidwell Friends in Washington, DC, to discuss what math students need to know when they go to college.

March 2009 Report on mathematical soundness of Washington State high school textbooks

<http://www.math.jhu.edu/~wsw/ED/wahighschoolwsw.pdf>

to go with Strategic Teaching's report

<http://www.math.jhu.edu/~wsw/ED/SThs.pdf>

for the State Board of Education.

April 14, 2009 Alliance for Excellent Education one day conference: Meaningful Measurement: The Role of Assessments in Improving High School Education in the Twenty-First Century. Washington, D.C.

April 18, 2009 The Founding Advisory Board for a new Charter school in Washington, D.C., the Cordova Science and Technology College Prep Institute. First meeting.

April 21, 2009 Advisory Council meeting for the MIND Research Institute. Washington, D.C.

April 23-25, 2009 NCTM meeting, Washington, D.C.

April, 2009 Publication of "Doing the Math: Are Maryland's High School Math Standards Adding Up to College Success?" by Gabrielle Martino with W. Stephen Wilson. Published by the Abell Foundation, Baltimore, Maryland.

May 5, 2009 International Lessons about National Standards. An all day event sponsored by the Thomas B. Fordham Institute, Washington, D.C.

May 6, 2009 Learning, Arts, and the Brain Summit. An all day event at the American Visionary Art Museum, Baltimore, Maryland. Sponsored in part by the JHU K-12 Council.

May 12, 2009 Scientific Evidence in Education Forums: Building a Foundation for the Future: A Discussion on the Latest Research on Elementary School Math Curricula. Washington, D.C.

May 18, 2009 Invited speaker at a parent's organized Frederick County, Maryland, meeting about: TERC: The Untold Story. Mt. Airy, Maryland.

May 28, 2009 Attend Maryland State Board of Education Meeting for Alan Ginsburg's presentation on Singapore Mathematics and Achieve's review of Maryland's K-8 curriculum by Laura Stover and Matt Gandal.

June 11-12, 2009 Attend the National Summit on 21st Century Skills in Washington, D.C.

Summer-Fall-Winter, 2009, Spring 2010 Member of the mathematics Feedback Group for the Common Core State Standards of the National Governors Association (NGA) and the Council of Chief State School Officers (CCSSO).

August, 2009 One of the authors of a letter to U.S. Secretary of Education Arne Duncan from mathematicians.

<http://www.math.jhu.edu/~wsw/ED/RTTTPublicLetter.pdf>

October, 2009 Publication of "Stars by which to Navigate? Scanning National and International Education Standards in 2009. An Interim Report on Common Core, NAEP, TIMSS, and PISA." by Sheila Byrd Carmichael, W. Stephen Wilson, Chester E. Finn, Jr., Amber M. Winkler, and Stafford Palmieri. Published by the Thomas B. Fordham Institute, Washington, D.C.

October 16, 2009 Panelist at the Maryland Council of Teachers of Mathematics Annual Conference: Gaining Clarity on the Common Core Standards Initiative - Implications for us All. Germantown, Maryland.

November 4, 2009 Panelist at the Fordham Institute on the release of the publication “Stars by which to Navigate?” above.

December 7, 2009 JHU School of Education “Shaping the Future: What’s Next after No Child Left Behind?” The symposium featured Maryland State Superintendent of Schools, Nancy Grasmick, Baltimore City Public Schools CEO, Andres Alonso and Undersecretary of Education Martha Kanter. In addition, the JHU folks were Robert Slavin, James McPartland and Mariale Hardiman.

December, 2009-Present On Advisory Board for the Frederick Classical Charter School.

December, 2009-Present Appointed to the Advisory Board for an Education minor, joint between the Krieger School of Arts and Sciences and the School of Education.

February 16, 2010 Hour talk at math night for the proposed Frederick Classical Charter School.

March 30, 2010 Meet with the Interim Dean of the JHU School of Education, the chair of teacher preparation and the person in charge of mathematics education.

April, 2010-14 Begin 4 year consultancy on the Advisory Board for an IES funded project with SRI International, the Berkeley Evaluation & Assessment Research Center, and the Center for Applied Special Technology. The project is: Learning Progressions: Developing a Universally Designed Formative and Summative Math Assessment System to Improve Learning Outcomes for Students with Learning Disabilities.

April 20, 2010 Visited Rider University to review their mathematics department for the university with one other reviewer. Produced report.

May 5, 2010 Johns Hopkins University Neuro-Education Initiative Summit: Attention and Engagement in Learning. Table facilitator for the all day event at the American Visionary Art Museum, Baltimore, Maryland.

May 7, 2010 Meet with Francine Johnson, in charge of mathematics education in the JHU School of Education.

June 15, 2010 Featured Mathematics Panelist, The Learning Institute, Bryant, Arkansas. Common Standards, Common Sense: What the Common Core State Standards Mean for Arkansas. With panelists Carol Jago, Sandra Stotsky, and Nancy Livingston.

September, 2010 A study of what happens to students who don’t know long division: Arithmetic, Division, Calculus III, and Beyond.

<http://www.math.jhu.edu/~wsw/ED/arith3.pdf>

September 20, 2010 Helped the Maryland State Department of Education with the transition from Maryland’s standards to the Common Core Standards.

December 6, 2010 Back to basics for the “division clueless.” An article about my work in the Johns Hopkins Magazine, Winter, 2010.

<http://magazine.jhu.edu/2010/12/back-to-basics-for-the-division-clueless/>
<http://www.math.jhu.edu/~wsw/ED/devclue.pdf>

January 3, 2011 MARYLAND FORWARD Governor's Forum on Education and Skills. Bowie State University.

<http://www.math.jhu.edu/~wsw/ED/mdforward2.pdf>

January 20, 2011 Spent the day at a middle school in Central Islip, New York, talking to math teachers and students.

March 2, 2011 On an expert panel (with Skip Fennell and Donna Watts) to advise a task force in Frederick County, Maryland, on the choice of a new elementary school math program (after their school board threw out TERC Investigations).

March 7, 2011 Spend the day with Jason Zimba in Vermont.

March 24, 2011 I was given a secondary appointment as a Professor in the School of Education at Johns Hopkins University.

March 30, 2011 Attend Annual Capitol Hill Luncheon for the Center for Excellence in Education.

April 21, 2011 Participant, Higher Education Review of Maryland Common Core State Curriculum Frameworks, at the University System of Maryland Office.

April 25, 2011 The Future of Teaching: New Standards, New Tests, and New Evaluations - What does it all mean? A symposium with Randi Weingarten, Sonja Brookings Santelises, Richard Lemons, and Michael Cohen. Johns Hopkins University.

May 11-13, 2011 Invited speaker at the workshop Critical Issues in Mathematics Education 2011: Mathematical Education of Teachers. Mathematical Sciences Research Institute (MSRI), Berkeley, CA.

May 23, 2011 Attend American Enterprise Institute event: Carrots, Sticks, and the Bully Pulpit: Sobering Lessons from a Half Century of Federal Efforts to Improve America's Schools. Washington, D.C. All day event with five panels.

May 26, 2011 Attend Alliance for Excellent Education briefing: "A Time for Deeper Learning: Preparing Students for a Changing World." Washington, D.C. (Gov. Bob Wise, Barbara Chow, Scott Palmer, Michael Feuer, Robert Lenz, Deborah Parizek, David Steiner, and Tom Washnicki)

June 3, 2011 Video interviewed by Michele Mazzocco for an education class.

June 7, 2011 Attend *Education Week's* release of *Diplomas Count 2011*. Pew Charitable Trusts, Washington, D.C.

July 15, 2011 Spend two hours talking with Michele Mazzocco's class at JHU's School of Education.

July 27 and 28, 2011 Consult on the Advisory Board for a large education grant with SRI International.

September 19, 2011 On-line critique of the the SBAC Math Specifications for the Fordham Institute.

September 26 and December 15, 2011 Meet with faculty at the Learning Research & Development Center at the University of Pittsburgh to advise on a major study of mathematics education they are preparing for.

August, 2011 to summer 2012 Member of Johns Hopkins University's Gateway Science Committee.

August and September, 2011 Reviewer for I3 grants.

November 1, 2011 Advisory Council meeting for the MIND Research Institute.

November 19, 2011 Speaker at conference: The Art and Science of Math Education, University of Winnipeg.

December 2, 2011 Attend Carl Weiman's lecture on college physics teaching.

December 5, 2011 Attend the School of Education at Johns Hopkins University panel on Shaping the Future: Examining Critical Issues in Education. Education reform: What will work best for schools? Panelists were Michael Yudin, Assistant Secretary for Elementary and Secondary Education, Michael Petrilli, Executive Vice President, Fordham Foundation, and Deborah Meier, Senior Scholar at New York University's Steinhardt School of Education.

December, 2011 Write up a detailed analysis of an arithmetic test for elite students: Arithmetic versus the Elite. <http://www.math.jhu.edu/~wsw/ED/arithprob.pdf>

January-Present, 2012 Made a member of the Partnership for Assessment of Readiness of College and Careers (PARCC) Content Technical Working Group (CTWG) for Mathematics.

January, 2012 JHU Gateway Science Initiative (2 year) Grant from the Provost's Office to make Khan Academy style videos for our service courses.

January 20, 2012 Symposium on Teaching Excellence in the Sciences, Johns Hopkins University. Main speakers: Jo Handelsman, David Botstein, Eric Mazur, and Freeman Hrabowski. I had to do a poster for winning a Gateway Science Initiative grant from the Provost's office.

January 27, 2012 Higher education review of Maryland State Department of Education unit plans for Common Core mathematics. Technology Center, University of Maryland Baltimore County-South Campus.

January-February, 2012 Review math curriculum modules for New York state.

February 1, 2012 The Thomas B. Fordham Institute, "What's holding back America's Science Performance?" Panelists, Dan Willingham, Kate Walsh, Kathleen Porter-Magee, Anne Jones, and Stephen Pruitt, with moderator Chester E. Finn. Jr. Talked with David Driscoll quite a bit (form super for Massachusetts).

February, 2012 Draft math standards for elementary and middle school teachers for Illinois.

March 15-16, 2012 Meeting of the PARCC Content Technical Working Group at Achieve in Washington, D.C.

May, 2012 Reviewer for I3 grants.

November 30, 2012 Attend math education colloquium at the University of Maryland to see Jason Zimba.

December 9, 2012 Applied Physics Laboratory Parent STEMPowerment Workshop, invited panelist.

January 17, 2013 Attend, (and on planning committee for), the 2nd Annual Symposium on Excellence in Teaching and Learning in the Sciences, with keynote speakers William Durden, Daphne Koller and Robin Wright.

January 24, 2013 Speak with Dwight Carr and team at APL about lesson plans.

February 1, 2013 Higher Education Review of lesson plans for the Maryland State Department of Education.

February 8, 2013 On a panel with Stephen Pruitt from Achieve (in charge of NGSS) on “Standard Issue?” for the meeting of the National Education Writers Association, *Under the Microscope: Examining STEM Education*.

April 3-5, 2013 Mathematical Sciences Research Institute (MSRI) conference on Critical Issues in Education: Assessment of Mathematical Proficiencies in the Age of the Common Core.

April 23-24, 2013 Meeting of the PARCC Content Technical Working Group at Achieve in Washington, D.C.

June 17, 2013 Conference on *The Many Ways of Inquiry Based Learning* at the University of Chicago.

July 9, 2013 Attend Symposium on *The Nation’s Report Card and 12th Grade Academic Preparedness* put on by the National Assessment Governing Board. Washington, D.C.

September 26, 2013 Attend Symposium on *Ready to teach: preparing new teachers for the classroom* put on by the Baltimore Curriculum Project and Loyola University of Maryland. Baltimore, MD. (Included James Hennessy, Fordham University; David Steiner, Hunter College; Kate Walsh, NCTQ; and Rachel Mazyck, Collegiate Directions.)

September 12, 2013 Attend event *Is Our Stagnant School System Endangering our Nation’s Future Prosperity*, Brookings, Washington, D.C.

2013-2014 Consult with Think Through Learning, Pittsburgh, PA.

October 16-18, 2013 Attend NCTM regional conference, Baltimore, MD.

November 20, 2013 Attend lecture by Daphne Koller, one of the founders of Coursera, at Johns Hopkins University.

January 14, 2014 3rd Annual Symposium on Excellence in Teaching & Learning in the Sciences, Johns Hopkins University. Talks by Sian Beilock, Sarah-Jane Leslie, and Gina Frey.

January 15-18, 2014 American Mathematical Society Annual Meeting, various sessions on education. Baltimore, Maryland.

February 23, 2014 Panelist at the Common Core Forum hosted by the PTA Council of Howard County.

February 27, 2014 Speaker at the joint Franklin & Marshall, Millersville University Colloquium.

June 6-9, 2014 Invited speaker and on a discussion panel at the Canadian Mathematical Society summer meeting in Winnipeg, Canada.

November 23, 2014 Transforming Post-Secondary Education in Mathematics, UMBC, Baltimore, Maryland.

January 13, 2015 Panel on Common Core and PARCC assessments at Westchester Elementary School.

2013-2015 Reviewed the New York State math curriculum engageNY, but by the time they were ready to post it, it was way out of date.

February 11, 2016 Attend Fordham Institute “Evaluating the Content and Quality of Next Generation Assessments”

June 8, 2016 Attend AEI “The close-minded campus?”

July 14, 2016 Attend Fordham Institute “Teachers Like Common Core Math. Why Don’t Parents?”

September 7, 2016 Attend Fordham Institute, Ingenuity Project, and JHU School of Education “Why the Excellence Gap Matters for Civil Rights.”

October 5-6, 2016 Attend Johns Hopkins University Conference “The Coleman Report at 50.”

January 26, 2017 Attend Johns Hopkins University School of Education panel on “Do Charter Schools Advance or Imped Civil Rights?”

January 22, 2018 Attend Johns Hopkins 3rd Biennial *Science of Learning Symposium: Minding the Gaps Among Levels of Explanation.*

January 31, 2018 Attend Johns Hopkins School of Education talk by David Steiner: *An Initiative on Curriculum Literacy.*

May 7, 2018 Attend Johns Hopkins School of Education talk by John Mighton: *A Matter of Equity: How to use evidence-based methods to close the achievement gap in math .*

Nov 8, 2018 Attend Fordham Institute panel on Inflated Grades. Washington, D.C.
