Homework is due at the weekly recitation meeting with Xiyuan, neatly written and stapled. Make sure to write your full name. You may – and are encouraged to – discuss and collaborate. However, you must write up your homework alone, and submit completely original work. Your solutions will be graded both on correctness and presentation clarity.

Study sections 4.2, 4.3 and 5.1.

- Section 4.2: problem 21.
- Section 4.3: problems 10, 11, 12, 13, 23.
- Section 5.1: problems 3(a,b), 8, 15, 16, 17, 22.

Always justify your solution. I strongly recommend the true or false problems to test your comprehension of each section.
