Homework is due at the weekly recitation meeting with Xiyuan, neatly written and stapled. Make sure to write your full name. You may – and are encouraged to – discuss and collaborate. However, you must write up your homework alone, and submit completely original work. Your solutions will be graded both on correctness and presentation clarity.

Study section 6.1.

- Section 6.1: problems 6, 10, 11, 12, 15, 17, 19, 20.

Always justify your solution. I strongly recommend the true or false problems to test your comprehension of each section.
