Assignment 8

After last week’s reprieve, we should be ready for a hearty meal:

*From the textbook:*

Exercises 3.1:  6(b)[also, give an example of a *commutative ring* in which the hypothesis is true but the conclusion is false.],
8(b), 16, 18(b), 19, 26(a), 28(b), 40, 43.

Exercises 3.2:  1(b), 2, 8, 10, 15, 19.

Exercises 3.3:  3, 4, 13.

*Extra credit: 3.1 #10*
